# Counting Hearts

A  
WIPE-OFF  
Activity Book

Dear Parent,

Practice and repetition are essential to building strong learning skills. The more your child practices these skills, the more likely he or she is to enjoy academic success and confidence in school.

The Care Bears® Wipe-off workbooks are designed to give your child the practice and repetition needed to master early math and language skills. The beloved Care Bears characters inspire and encourage children on a learning adventure. Each book is filled with 24 pages of fun, educational activities that your child will delight in completing—then wiping off and doing all over again! These wipe-off workbooks can be used with wipe-off crayons or any water-based marker. The sturdy pages allow endless hours of learning enjoyment.

The **Counting Hearts** Wipe-off book includes activities for:

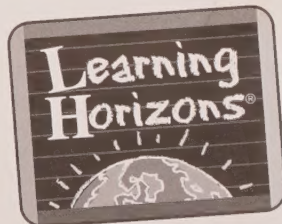

- Number recognition
- Counting from 1 to 10
- Beginning number printing practice

You can aid your child's learning progress by guiding him or her through the book and reviewing completed work. Offering encouragement and praising both success and efforts helps to make your child's learning experience happy and positive.

Congratulations on fostering your child's educational development.

Sincerely,

Your friends at  
Learning Horizons
